

Tahir Hameed

MERN Stack Developer & Software Engineering Student

Karachi, Pakistan | tahir.hameed@example.com | github.com/ (placeholder) | linkedin.com/ (placeholder)

Summary

Software Engineering student (6th semester, expected graduation 2027) focused on full-stack development with the MERN stack. Comfortable across the whole path from database schema to shipped UI, with a particular interest in clean API design and systems that hold up under real use. Seeking a Web Development internship.

Education

BS Software Engineering — Bahria University, Karachi Campus

2023 – Present (Expected Graduation 2027) | 6th Semester

Relevant coursework: Object-Oriented Programming, Data Structures & Algorithms, Database Management Systems, Software Engineering, Cloud Computing, Operating Systems.

Technical Skills

Frontend	React.js, Next.js, Tailwind CSS, JavaScript (ES6+)
Backend	Node.js, Express, REST API Design, JWT Auth, C# / .NET Basics
Data & Cloud	MongoDB, MySQL, Cloud Fundamentals
Tooling	Git / GitHub, Postman, Vercel, Docker (basics)

Selected Projects

Broker-Free Real Estate Platform

React, Node.js, MongoDB, JWT

Listings marketplace with secure auth and a fast search/filter system; normalized schema across listings, agents, and inquiries.

TipNinja

Express, EJS, MongoDB, Tailwind

Airbnb-style listings clone built to practice full MVC structure, server-rendered views, and session-based auth.

Inventory Management System

MERN, SOLID, REST API

Stock-tracking system for small retailers with SKU management, low-stock alerts, and role-based access.

Legacy Web Services Modernization

.NET, C#, REST

Refactored a service-oriented codebase toward REST conventions with backward-compatible endpoint versioning.

Algorithm Modules Library

JavaScript, Data Structures, Unit Testing

Core data-structure and algorithm implementations with unit test coverage for coursework and interview prep.

Weather Forecast App

React, REST API, Hooks

React app consuming a public weather API with async state handling and graceful fallback UI.

Availability

Open for internship — immediate start, remote / hybrid / on-site.
